This is a Public Interest Litigation (PIL) seeking issuance of direction restraining respondents from raising construction of extended building of the school.

As per petitioners' own showing, the construction is for school building only and it is not a case that an outsider has

encroached upon the land allotted to the school. The only ground on which this petition has been filed is that since the land was allotted for the purpose of play ground, the extension of the school building on the play ground is not permissible in law.

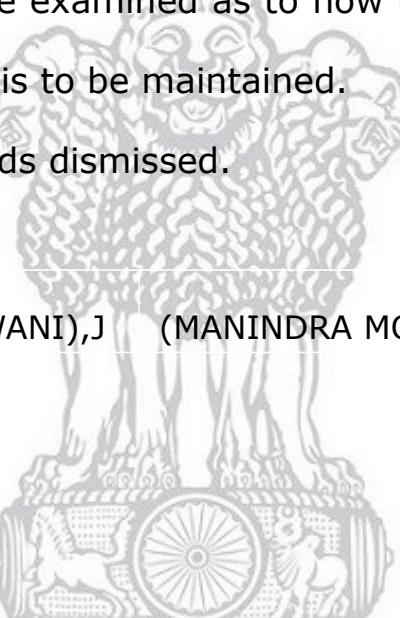

Apparently, the construction is of the extended part of the school building. The requirement of school building is a matter for consideration for the respondents. It is not a matter of public interest as such. It is for the authorities to consider the use of the land for the purpose of the school, play ground etc. We are not inclined to interfere with the action of the respondents.

The petitioner may, however, represent the school authorities and the matter may be examined as to how the arrangement with regard to play ground is to be maintained.

The petition stands dismissed.
